This progressive company, specializing in high-quality medical laser hair removal technologies, offers an excellent opportunity for a strategic acquisition. The company is known for its solid financial health and impressive profitability, as evidenced by various strong financial ratios. These ratios indicate excellent liquidity, efficient utilization of assets, and a low reliance on debt financing.

Thanks to a driven and experienced team, innovative products (perhaps replacing products with equipment), and a strong market position in Flanders, this company has built an excellent reputation. It offers a wide range (so maybe they think we offer multiple types of treatments?) of advanced medical laser hair removal equipment

that is appreciated by healthcare professionals throughout Flanders.

Unique selling points

Nursing Team of 8 Laser Experts; 15 years of experience with 10,000 treatments per year.

Extremely high quality, always the very latest equipment; diode laser: the diamond of high-tech laser equipment.

Working in 100 E-MED salons in Flanders; specialist, focus on laser hair removal.

Always honest and expert advice.

Good value for money.

Other

Are you looking for a thriving company in medical laser hair removal technology with strong financial foundations and promising growth opportunities, active throughout Flanders? Then this is your chance!

Acquiring this company offers not only direct access to a profitable and stable enterprise, but also the opportunity to become part of a sector with high growth potential. The acquisition is preferably realized via a share transfer, whereby the acquisition price can be determined by mutual agreement.
