## Company history/background

After having built a thriving family business with passion and craftsmanship over more than 50 years, we are offering our established plant center for acquisition.

The sale is taking place due to the lack of family succession.

We specialize in the retail sale of a wide and unique assortment of high-quality outdoor plants. In addition, a

small selection of related products is offered, such as soil improvers, potting soil, flower pots, and fertilizers.

## Unique selling points

The plant center is situated on a site of more than 3 hectares, along a busy connecting road with excellent accessibility from both Limburg and Flemish Brabant. The strategic location and good visibility have contributed for many years to strong regional brand awareness and a loyal customer base.

The company is fully operational and has a modern, excellently maintained infrastructure, including:

- Recent warehouse of 850 m<sup>2</sup>
- Two spacious convertible conservatories
- Fully automatic irrigation system
- Water collection cisterns
- Solar panels
- New truck
- Modern machinery
- Offices
- Customer parking

Over the years, consistent investments have been made in modernization, sustainability, and efficiency. As a result, the new owner can immediately build upon a healthy and professionally developed company.

## Other

To ensure a smooth transfer, I am willing to actively guide the new owner for an agreed period and transfer my years of knowledge and experience.

Are you looking for an established company with an excellent reputation, a strategic location, modern infrastructure, and strong growth potential?

Then this plant center is a unique opportunity.

Discretion is a matter of course. Further information will be provided exclusively after personal contact.
