Other

The company manufactures modern stairs and railings in metal, with or without other materials.

Everything is custom-made, and they design their own designer stairs and railings. (Woodworking is also an option.)

There is also a workshop/warehouse of +/- 500 m² which contains the necessary machinery for the manufacture of the structures.

The workshop/warehouse belongs to the company and is spacious enough to allow for further expansion.

They are widely known in the region for excellent service and quality.

The manager, his wife (part-time) and 1 employee are currently employed there.

The office is located in the studio on the top floor. Ample parking is available.

The current managers are prepared to train the new manager for the period required.

Transaction: sale of all shares including real estate.
